

## Cell Thawing System

## Product Introduction

It is used for the recovery of frozen storage products in a controlled temperature environment, safe and consistent recovery of frozen storage products, time controllable, in line with cGMP regulations, and the process can be replicated.

## Key Features

- ✓ Reduce the pollution risk of traditional artificial water bath methods
- ✓ Recovery is standardized and consistent
- ✓ Processes can be monitored and recorded, and data can be traced
- ✓ Temperature controllable, precise temperature control
- ✓ Compatible with various specifications of frozen storage bags
